

New York Stock Market

New York, August 3.—The stock market today disclosed its narrow limitations under circumstances as they exist. The sharp rebound of the day before seemed to exhaust the demand for the shorts, and there was none forthcoming of a more positive nature. While there was no renewal of the urgent selling, which aroused the suspicion of forced liquidation from time to time, there was a pressure of stocks for sale to realize profits on the rebound yesterday. Sales were in moderate volume, but the demand had become so feeble and languid that no absorptive medium was provided and prices gave way. Here and there were strong special movements, but their sustaining influence on the general list was very moderate. Any measures of support by the larger financial interests seemed to be withdrawn for a time after the warning administered to the bear party that they would not be permitted to pursue aggressive operations without value without opposition. Before the close of the day the requirements of the shorts asserted themselves again and caused a recovery of most of the day's decline.

The news offered no striking change in conditions bearing on values. The growing crops held a large share of attention, and their passage through the critical period for their welfare is the main factor of constraint in the market at present. With the government report on cotton condition out of the way, attention was diverted to the more immediate weather conditions affecting that crop. These were reported more favorable in the Atlantic Coast States, where the greatest deterioration was shown in the government report.

Early reports of more high temperatures in Texas were succeeded by assurances that the cloudier and cooler weather had developed there. In the field of the grain crops the government crop report based on condition of August 1st is to be published next Monday, is coming into the circle of calculated influences. The fears of the showing in that document of a decline wrought by the drought to corn were tempered to-day by the news of further moisture in the affected regions. The money market offered nothing to supply the depressive influence on stocks. Movements of cash into New York bank reserves continued in large volume. The gain for the week of \$4,182,000 on Treasury operations is helped by large deferred payments from the assay office for gold arriving last week and 10,837 last year. Today's additional shipments are arriving, and yesterday's engagement of over \$3,000,000 in London remaining to go to the Treasury. The actual surplus reserve of upwards of \$50,000,000, computed from last Saturday's actual surplus of over \$47,000,000, seems a warranted assumption from these figures. The withdrawals of gold had the effect of hardening the private discount rates in London to-day, but the rate of the Treasury in New York over London remains so wide that continued movement of gold is indicated. A good impression of the effect of the reported operations of Chicago bankers that the balances of country banks in the Western reserve centers being largely replenished as a result of the liberal movement of wheat to market.

Study in detail of the national bank returns to that control afforded reassurance as to the reserve position of the country banks, which are responsible for the loan expansion of the three months preceding June 30.

Rumors of price-cutting of steel products by independents were accompanied by support of the United States Steel Corporation would meet the cuts. The selling of United States Steel was a decisive sympathetic influence on the general list. The rise in that stock afforded corresponding relief. The dealings in it, Union Pacific and Reading accounted for over half the day's activity.

Bonds were irregular. Total sales, par value, \$1,444,000. United States bonds were unchanged on call. Foreign government bonds were steady. The day was \$10,500 shares.

New York, August 3.—Money on call steady, 1 1/2. Time loans firm; 60 days, 2 3/4; 90 days, 3 1/4; 120 days, 4 1/4; 180 days, 5 1/4; 240 days, 6 1/4. Prime mercantile paper, 1 1/2. Sterling exchange steady, with actual business in bankers' bills at \$1.53 3/4 to \$1.54 1/2 for sixty days, and at \$1.53 1/2 for demand. Commercial bills, 60 days, \$1.53 3/4 to \$1.54 1/2. Mexican dollars, 44.

RICHMOND STOCK MARKET.

Richmond, Va., August 3, 1910.
